

ALEXI CLARK

Alexi has been successful in the audition and examination process and commenced studying a Bachelor of Education majoring in Music education in February 2021. She aims to become a primary or high school music teacher, specialising in teaching instrumental and classroom music to children of all ages.

She plans to continue to be active in the performing arts field through her studies at university by participating in university ensembles and orchestras, tutoring children in her instrument of study (flute), and being as active as she can in extra-curricular music opportunities that arrive. She hopes to join community orchestras situated in Perth such as the Metropolitan Symphony Orchestra or the West Australian Symphony Orchestra. In attending a specialised music-focused university, she will take the opportunity to get involved with and be active within the performing arts field and community.
